

VENTILATOR I ACTIVE DRYING

Ventilation incl. hygienic aeration and exhaust system – optimal drying and warming of shoes/boots, helmets and gloves

TOWEL DRYER

2 integrated warm-air elements provide dry and warm towels

AIR OUT EXHAUST SYSTEM

Humidity can escape through the top

MESH & MIRROR

Mesh for small articles and a mirror for styling

HOOKS

Hooks for a backpack, clothes and poles

SKID PADS

Prevents propped up skis from falling over

BOTTLE HOLDER

For a thermos or water bottle

ELECTRONICS

LED illumination, 230-volt USB plug for charging bicycle batteries, navigation systems, ski boot heating or other devices

PULL-OUT CABINET

Good ease of usability thanks to a pull-out element that opens towards the front

TEXTIL- COMPARTMENT

Separation of the wet and dry areas by an extremely well-ventilated and heated textile compartment (2 areas)

VENTILATOR II AIR IN

The locker is extremely well ventilated – and heated, if needed

GRATE

For a clean cabinet
